

OPIS PREDMETA / SUBJECT SPECIFICATION

Predmet:	Izbrana poglavja iz okoljevarstvenega načrtovanja
Subject Title:	Selected Topics in Environmental Management

Študijski program Study programme	Študijska smer Study field	Letnik Year	Semester Semester
Doktorski študij Ekološke znanosti / Doctoral Study Ecological Sciences		Izbirni 1 ali 2 ali 3	2 ali 3 ali 4 ali 5

Univerzitetna koda predmeta / University subject code:

Predavanja Lectures	Seminar Seminar	Sem. vaje Tutorial	Lab. vaje Lab. work	Teren. vaje Field work	Samost. delo Individ. work	ECTS
5		5			140	5

Nosilec predmeta / Lecturer:

Vesna SMAKA KINCL

Jeziki / Languages:	Predavanja / Lecture: Vaje / Tutorial:	slovenski / Slovenian
------------------------	---	-----------------------

Pogoji za vključitev v delo oz. za opravljanje
študijskih obveznosti:

Poznavanje biologije in ekologije na ravni univerzitetnega in pristopov k ohranjanju narave ter humane ekologije na ravni drugostopenjskega programa

Knowledge of biology and ecology at graduate level, and of approaches in nature conservation and human ecology at master level

Vsebina:

Obravnavana so izbrana poglavja iz naslednjih sklopov.

- Principi trajnostnega razvoja
 - Instrumenti za zagotavljanje trajnostnega razvoja; institucionalni in pravni okvir na globalni, EU, državni, regijski, lokalni ravni
 - Vključevanje javnosti in okoljskih nevladnih organizacij
- Zakonitosti ohranjanja ravnovesja v ekosistemih (kroženje snovi v naravi, reverzibilnost in irreverzibilnost procesov, samočistilne sposobnosti ekosistemov in ohranjanje naravnih virov; vplivi različnih gospodarskih dejavnosti na ekosistemsko ravnovesje)
- EU-, državni in lokalni predpisi s področja varstva okolja in ohranjanja narave
- Okoljski tematski podzakonski predpisi
 - Varstvo zraka
 - Gospodarjenje s pitno, odpadno in površinskim vodami
 - Gospodarjenje z nenevarti, nevarni in inertni odpadki
 - Varstvo pred hrupom
 - Varovanje narave
- Informacijski sistem varstva okolja
 - Raljivost prostora (vodovarstvena območja, območja varstva pred hrupom, območja varstva narave)

Contents (Syllabus outline):

Selected topics in the following chapters are discussed.

- Sustainable development principles
 - Instruments for the sustainable development implementation; institutional and legal frame on the global, EU, national, regional, local levels
 - Public and non-governmental organisations involvement
- Ecosystems and its balances (circulation of substances in the nature, reversibility and irreversibility of processes, self-cleaning ability of ecosystems and preservation of the natural resources, influences of the different economic activities on the ecosystems balance)
- Environmental and nature protection legislation at EU, national, regional and local levels
- Environmental thematic legislation
 - Air protection
 - Drinking, waste and surface water management
 - Waste management: non-hazardous, hazardous and inert wastes
 - Against-noise protection
 - Nature protection
- Environmental protection information system
 - Spatial vulnerability (water-, noise-, nature protection areas)
 - Emission and imission monitoring databases
- Environmental protection reporting

<ul style="list-style-type: none"> - Baze podatkov o imisijskih ter emisijskih monitoringih • Poročanje o stanju okolja <ul style="list-style-type: none"> - Metodologije za izdelavo poročil (analize, trendi, indikatorji) • Programi varstva okolja (občinski, regionalni, nacionalni, evropski) • Nacionalni, regionalni in občinski operativni programi za posamezna tematska področja (vode, odpadki itd.) • Aarhuška konvencija (prost dostop do informacij okoljskega značaja, vključevanje javnosti v okoljsko odločanje in pravno varstvo glede okoljskih zahtev) • Obvezne in izvajanje okoljskih predpisov za posamezna tematska področja – postopno usklajevanje okoljskih standardov do 2015 <ul style="list-style-type: none"> - Varstvo zraka z analizo emisijskih in imisijskih parametrov - Gospodarjenje s pitno z analizami imisijskih in emisijskih monitoringov - Ravnanje s površinskimi in odpadnimi vodami ter blatom čistilnih naprav - Gospodarjenje z nenevarnimi, nevarnimi in inertnimi odpadki - Varstvo pred hrupom - Varstvo tal - Ohranjanje narave - Vključevanje okoljskih smernic v industrijo, energetiko, promet, kmetijstvo, turizem 	<ul style="list-style-type: none"> - Methodologies of reporting (analysis, trends, indicators) • Environmental action programs (local, regional, national and EU) • National, regional, and local thematic activity programs (waters, wastes etc.) • Aarhus convention (free access to the environmental information, public involvement in the environmental resolutions, and legal protection in the environmental matters) • Implementation of the environmental legislation in different thematic areas – step by step harmonisation of the environmental standards till 2015 <ul style="list-style-type: none"> - Air protection using analysis of emission and emission parameters - Drinking water management on the basis of analysing emission and emission parameters - Surface and waste water, and sewage-sludge management - Waste management: non-hazardous, hazardous and inert waste - Against-noise protection - Nature protection management - Environment as a horizontal issues for economic activities (industry, energetics, traffic, agriculture, tourism)

Cilji:

Objectives:

- Poznavanje principov trajnostnega razvoja
- Podrobno razumevanje principov ravnotežja v različnih ekosistemih
- Podrobno oznavanje in uporaba okoljske zakonodaje
- Podrobna seznanitev s stanjem okolja ter strategijami in programi na nivoju EU, državnem, regijskih in lokalnih nivojih
- Podrobno poznavanje mreže projektnih rešitev različnih okoljskih problemov
- Podrobna seznanitev s primeri »najboljših rešitev«

- To know sustainable development principles
- To understand in detail principles of the ecosystem balances
- To know and be able to apply the environmental legislation
- To get acquainted in detail with environmental conditions, strategies and programs at EU, national, regional and local levels
- To know in detail project frame of the suitable solutions of different environmental problems
- To get acquainted in detail with the »best practice« cases

Predvideni študijski rezultati:

Znanje in razumevanje:

- Podrobno poznavanje zakonitosti trajnostnega razvoja
- Podrobno razumevanje pomena ekosistemskega ravnovesja
- Podrobno seznanjenje z EU-, slovenskim in lokalnim pravnim redom s področja varovanja okolja ter s tematskimi predpisi
- Podrobno razumevanje zasnov programov varstva okolja
- Podrobno razumevanje pomena vključevanja javnosti v okoljsko odločanje

Prenesljive/ključne spremnosti in drugi atributi:

- Podrobno razumevanje osnovnih načel okoljske zakonodaje
- Zmožnost kreativnega vključevanja v interdisciplinarno obravnavo problemov
- Sposobnost podrobne samostojne analize stanja lokalnega okolja

Intended learning outcomes:

Knowledge and Understanding:

- To know advanced sustainable development principles
- To understand advanced principles of the ecosystem balances
- To know in detail the environmental legislation, strategies, programs at EU, national, regional and local levels
- To understand advanced fundaments of environmental programs
- To understand advanced the importance of the public involvement in the environmental matters

Transferable/Key Skills and other attributes:

- Understand advanced principles of the environmental legislation
- Ability to shear creative interdisciplinary approach in solving environmental problems
- Ability of advanced analysing the state of the local environment

Metode poučevanja in učenja:

- Predavanja
- Seminar
- Seminarske vaje
- Tematske ekskurzije

Learning and teaching methods:

- Lectures
- Tutorial
- Seminar exercises
- Thematic field excursions

Načini ocenjevanja:

Delež (v %) /
Weight (in %)

Assessment:

• Seminarska naloga in predstavitev	50 %	• Seminar essay and its presentation
• Pisni izpit	50 %	• Written examination

Materialni pogoji za izvedbo predmeta :

- Multimedija predavalnica
- Tematske ekskurzije (organizirani prevozi v mariborski regiji)

Material conditions for subject realization

- Lecture hall for multimedia presentation
- Thematic excursions (organized transfers for field works in the Maribor region)

Obveznosti študentov:

(pisni, ustni izpit, naloge, projekti)

- Seminarska naloga in predstavitev
- Pisni izpit

Students' commitments:

(written, oral examination, coursework, projects):

- Seminar essay and its presentation
- Written examination

<i>Obveznosti študentov:</i> <i>(pisni, ustni izpit, naloge, projekti)</i>	<i>Students' commitments:</i> <i>(written, oral examination, coursework, projects):</i>
• Seminarska naloga in predstavitev • Pisni izpit	• Seminar essay and its presentation • Written examination
