UČNI NAČRT PREDMETA / COURSE SYLLABUS

Predmet:	Sistematika in filogenija nižjih rastlin
Course title:	Systematic and phylogeny of lower plants

Študijski program in stopnja Study programme and level	Študijska smer Study field	Letnik Academic year	Semester Semester
Biologija, 1.stopnja		1	2
Biology, 1.degree		1	2

Vrsta predmeta / Course type	Obvezni / obligatory
------------------------------	----------------------

Univerzitetna koda predmeta / University course code:	
-------------------------------------------------------	--

Predavanja Lectures	Seminar	Sem. vaje Tutorial	Lab. vaje Laboratory work	Teren. vaje Field work	Samost. delo Individ. work	ECTS
30	-	-	30	-	90	5

Nosilec predmeta / Lecturer:	Sonja ŠKORNIK
------------------------------	---------------

Jeziki / Languages:	Predavanja / Lectures: Vaje / Tutorial:	Slovenski/Slovenian Slovenski/Slovenian
---------------------	-----------------------------------------	-----------------------------------------

Pogoji za vključitev v delo oz. za opravljanje študijskih obveznosti:

Jih ni	No.
--------	-----

Vsebina:

Pod pojmom »nižje rastline« razumer mahove in praprotnice, po dogovoru pa skupino vključene tudi cianobakterije in Fungi. Podane so morfološke in funkcionalne značilnosti skupin, s poudarkom na načinu razmnoževanja. Poudarjena sta evolucijski aspekt in filogenija.	As »lower plants«, Pteridophytes, Bryophytes and Algae are understood, according to agreement, also Cyanobacteria and Fungi are included. The morphological and functional characteristics of the groups are given. The evolutionary aspect and phylogeny are stressed.

Prerequisits:

Content (Syllabus outline):

Temeljni literatura in viri / Readings:

- Campbell, N.A. in J.B.Reece, 2005. Biology. 7th edition, Pearson/Benjamin Cummings, San Francisco.
- Moore, R. s sod. 1998. Botany. 2nd Edition
- Graham E. L. & Wilcox W. L., 1999: Algae. Prentice Hall, USA.
- Raven, P.H. 2005. Biology of Plants. W.H.Freeman and Company /Worth Publishers
- P. Sitte s sod. 2002. Der Botanik : für Hochschulen: begründet von E. Strasburger. 35. Aufl. Heidelberg, Berlin : Spektrum Akademischer Verlag

Cilji in kompetence:

- Podati pregled nad sistemom nižjih rastlin
- Razložiti evolucijo in filogenijo nižjih rastlin
- Pojasniti različne načine razmnoževanja, v povezavi z evolucijo in morfologijo
- Utemeljiti sorodstvene odnose med skupinami
- Primerno predstaviti najbolj značilne predstavnike
- Primerno predstaviti pogoste, gospodarsko uporabne, endemične ter na druge način za človeka pomembne vrste nižjih rastlin

Objectives and competences:

- To give an overview over the taxonomic system of lower plants.
- To explain the evolution of lower plants.
- To explain different reproduction cycles, based on evolution and morphology.
- To ground the relationships between the taxonomic groups.
- To present the most representative species.
- To present the most common, economically useful, endemic, or otherwise for man important lower plant species.

Predvideni študijski rezultati:

Znanje in razumevanje:

Intended learning outcomes:

Knowledge and understanding:

- Evolution and phylogeny of lower plants.
- Systematics of lower plants.
- Basic morphology and reproduction cycles of lower

<ul style="list-style-type: none"> - Evolucija in filogenija nižjih rastlin - Sistematska delitev nižjih rastlin - Osnovna morfologija in razmnoževanje nižjih rastlin - Vedenje o najpogostejših, endemičnih in uporabnih rastlinah 	<p>Knowledge and Understanding:</p> <p>-Knowledge about most common, endemic and To know the typical species systematic and taxonomy</p> <p>To know the evolution of classification and systems through the history</p> <p>To know some mostly used classification methods</p> <p>To know the basic groups of organisms, which we treat in the frame of plant systematic on the basis of the morphology, reproduction and ecology of the most typical representatives for the each group</p> <p>To understand the origin and evolution of separate plant groups</p>
--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------	--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------
