Nosilec predmeta / Lecturer:	Timotej Jagrič, Sebastjan Strašek
------------------------------	-----------------------------------

Jeziki / Languages:	Predavanja / Lectures: Slovenski / Slovene ali /or angleški / English
	Vaje / Tutorial: Slovenski / Slovene ali /or angleški / English

Pogoji za vključitev v delo oz. za opravljanje študijskih obveznosti:

Predmet zahteva znanja, ki jih študent pridobi pri dodiplomskih predmetu matematike. Nekaj ponovitev ključnih konceptov bo podanih, vendar mora študent poskrbeti, da bo imel ustrezno predznanje, ki je nujno za razumevanje predavanj.

Prerequisites:

The course requires that students have taken the undergraduate mathematics course. Some revisions of key concepts will take place however it is the responsibility of students to ensure that they have necessary technical background to follow the course.

Vsebina:

- Strukturne spremembe v gospodarstvu
- Input-Output (medsektorska) analiza
- Konjunkturna ekonomika
- Aktualna problematika v sektorjih
- Industrijska politika

Content (Syllabus outline):

- Structural changes in economy
- Input-Output analysis
- Business cycle economics
- Recent sectoral changes
- Industrial policy

Temeljni literatura in viri / Readings:

1. Strašek, S. in Jagrič, . (2004) Sektorska ekonomika. Univerza v Mariboru, Ekonomsko-poslovna fakulteta, Maribor.
2. Heather K. (2002), The Economics of Industries and Firms, New York: Prentice Hall
3. Ferguson P. (1998), Industrial Economics, UK: Millan

Cilji in kompetence:

Cilj predmeta je omogočiti študentom razumevanje sodobnih sektorskih sprememb, posredovati jim temeljna znanja o medsektorski analizi ter spoznati in analizirati moderno industrijsko politiko.

Objectives and competences:

The aim of the course is to enable students to understand recent sectoral changes and trends, to provide them knowledge on basic characteristics of input-output analysis and to analyze modern industrial policy.

Predvideni študijski rezultati:

- razumevanje gospodarskih posledic vpliva ekonomske politike na sektorske spremembe;
- znanje o merodajnih informacijah o strukturnih spremembah;
- zmožnost meriti in analizirati s pomočjo input-output analize.

Prenesljive/klučne spretnosti in drugi atributi:

- sposobnost analize in sinteze;
- sposobnost uporabe znanja v praksi;
- samostojno delo;
- ustna in pisna komunikacija;
- reševanje problemov;
- sposobnost prilaganja novim razmeram.

Intended learning outcomes:

- comprehension of economic impact of economic policy on sectoral changes;
- knowledge about relevant information for structural changes;
- capability to measure and analyze with input-output analysis.

Transferable/Key Skills and other attributes:

- capability for analysis and synthesis;
- capacity for applying knowledge in practice;
- autonomous work;
- oral and written communication;
- problem solving;
- capacity to adapt to new situations.

Metode poučevanja in učenja:

Pri predmetu so uporabljene sledeče metode poučevanja in učenja:

- predavanja (predavatelj bo podal študentom vsebino ključnih teorij in tehnik);
- vodene vaje v računalniški učilnici (primeri modeliranja in razprava o domačih nalogah);
- individualne konzultacije s predavateljem;
- samostojno delo v računalniški učilnici, s posebnim poudarkom na uporabi interneta (izdelava domačih nalog z uporabo Excela, delo z ekonomskimi bazami podatkov, učna gradiva na internetu, spletnne predstavitev);
- samostojni študij gradiva.

Learning and teaching methods:

The following methods and forms of study are used in the course:

- lectures (lecturer will provide students with knowledge of the fundamental theories and techniques);
- guided classes in computer room (sample modeling is done and the main problems of home assignments are discussed);
- teachers' consultations;
- self study in computer room, in particular with the Internet (making home assignments using Excel, work with economic data bases, study guides on the Internet, looking through sets of lecture slides);
- self study with literature.

Delež (v %) /

Weight (in %)

Assessment:

Načini ocenjevanja:			
pisni izpit; seminarska naloga	80% 20%	written exam; seminar paper
