in matematiko

UČNI NAČRT PREDMETA / COURSE SYLLABUS

Predmet:	Spletno programiranje
Course title:	Web Programming

Študijski program in stopnja Study programme and level	Študijska smer Study field	Letnik Academic year	Semester Semester
Izobraževalno računalništvo 1. stopnja UN Educational computer science 1 st cycle Academic undergraduate		2.	poletni Spring

Vrsta predmeta / Course type

Univerzitetna koda predmeta / University course code:

Predavanja Lectures	Seminar Seminar	Vaje Tutorial	Klinične vaje work	Druge oblike študija	Samost. delo Individ. work	ECTS
15		45 (15SV, 30LV)			120	6

Nosilec predmeta / Lecturer:

Milan Ojsteršek

Jeziki / Languages:	Predavanja / Lectures: Vaje / Tutorial:	slovenski / Slovene slovenski / Slovene
------------------------	---	--

Pogoji za vključitev v delo oz. za opravljanje
študijskih obveznosti:

Osnove programiranja v enem od visokih programskeh jezikov (C, C++ ali Java).

Student has to know basic programming in one of imperative programming languages (C, C++, Java).

Vsebina:

- Uvod: življenjski cikel gradnje spletnih aplikacij, spletni strežniki.
- Java in J2EE tehnologija.
- Tehnologija Microsoft .NET: ogrodje .NET, ADO.NET, ASP.NET.
- Trojček: PHP, Appache in MySQL.

Content (Syllabus outline):

- Introduction: web application life cycle, web servers.
- Java and J2EEE technology.
- Microsoft .NET: .NET Framework, ADO.NET, ASP.NET.
- PHP Appache, MySQL.

<ul style="list-style-type: none"> • Označevalni jeziki: XML, DTD, sheme XML, XML DOM, XSLT, XPath, XLink, XPointer, XQuery. • Socialna omrežja in tehnologije Spleta 2.0. • Spletne storitve in storitveno usmerjena arhitektura: SOAP, WSDL, UDDI, WS standardi (WS-Security, WS-Transaction, WS-Coordination, WS-Addressing, WS-Choreography, WS – Description...), storitveno vodilo, BPEL, storitveni vzorci. • Portali, sistemi za upravljanje z vsebinou, dokumentni sistemi, integracija vsebin in storitev. • Pripomočilni sistemi, iskalniki in upravljanje z identitetami. • Pomenski splet: RDF, OWL, ontologije, predstavitev znanja. 	<ul style="list-style-type: none"> • Markup languages: XML, DTD, XML schema, XML DOM, XSLT, XPath, XLink, XPointer, XQuery. • Social networks and Web 2.0 technologies. • Web Services and service oriented architecture: SOAP, WSDL, UDDI, WS standards (WS-Security, WS-Transaction, WS-Coordination, WS-Addressing, WS-Choreography, WS-Description...), service oriented bus, BPEL, web services patterns. • Portals, content management systems, document systems, integration of content and services. • Recommendation systems, search engines and identity management. • Semantic Web: RDF, OWL, ontology, knowledge representation.

Cilji in kompetence:

Cilj predmeta je naučiti študenta razvoja spletnih aplikacij s trenutno aktualnimi spletnimi tehnologijami, programskimi orodji, skriptnimi in programskimi jeziki za razvoj spletnih aplikacij.

Objectives and competences:

The objective of this course is to acquaint students with the latest technologies, programming tools, scripting and programming languages suitable for Web applications development.

Predvideni študijski rezultati:

Znanje in razumevanje:

Po zaključku tega predmeta bo študent sposoben:

- poiskati na internetu ustrezne informacije o tehnologijah, skriptnih in programskih jezikih, programskih orodjih, ki jih uporablja pri razvoju svojih spletnih aplikacij,
- izbrati ustrezno tehnologijo, skriptni jezik, programski jezik, programsko orodje in podatkovno bazo za razvoj spletnih aplikacij,
- uporabljati skriptne jezike pri razvoju predstavitevnega dela splene aplikacije,
- uporabljati programska jezika C# in Java pri razvoju poslovne logike in podatkovnega sloja spletnih aplikacij,
- analizirati, načrtovati, izdelati, testirati in promovirati spletno aplikacijo,
- izdelati spletno storitev.
-

Prenosljive/klučne spretnosti in drugi atributi:

- *Spretnosti komuniciranja*: ustni zagovor laboratorijskih vaj, ustno izražanje na ustrem izpitu, pisno izražanje pri pisnem izpitu.
- *Uporaba informacijske tehnologije*: uporaba programskih

Intended learning outcomes:

Knowledge and understanding:

On completion of this course the student will be able to

- find appropriate information on the internet about programming tools, scripting and programming languages suitable for development of Web applications,
- select appropriate technology, data base, programming tool, scripting and programming language for Web application development,
- use of scripting languages for development of presentation layer of Web application,
- use of C# or Java for development of business and data layer of web application,
- analyse, design, implement, test and promote Web application,
- implement a Web service.

Transferable/Key skills and other attributes:

- *Communication skills*: oral lab work defence, manner of expression at written examination and oral examination.
- *Use of information technology*: use of different tools for

<p>orodij za načrtovanje, implementacijo, razhroščevanje in testiranje spletnih aplikacij.</p> <ul style="list-style-type: none"> • <i>Reševanje problemov:</i> načrtovanje in implementacija spletnih aplikacij. • <i>Delo v skupini:</i> študenti v skupini analizirajo, načrtujejo, izdelajo in testirajo spletno aplikacijo. 	<p>program design, implementation, debugging and testing of simple Web applications.</p> <ul style="list-style-type: none"> • <i>Problem solving:</i> design and implementation of simple Web application. • <i>Working in a group:</i> team of students analyse, design, implement and test their Web application.
--	---

Metode poučevanja in učenja:

- predavanja,
- laboratorijske vaje,
- delo v skupini.

Learning and teaching methods:

- lectures,
- lab work,
- working in group.

Delež (v %) /

Načini ocenjevanja:**Weight (in %) Assessment:**

<ul style="list-style-type: none"> • računalniške vaje*, • 1. vmesni pisni izpit, • 2. vmesni pisni izpit, • 3. vmesni pisni izpit. 	<table border="1" style="width: 100%; border-collapse: collapse;"> <tr> <td style="padding: 5px;">50 %</td><td style="padding: 5px;">• computer lab work*,</td></tr> <tr> <td style="padding: 5px;">15 %</td><td style="padding: 5px;">• 1st midterm written exam,</td></tr> <tr> <td style="padding: 5px;">15 %</td><td style="padding: 5px;">• 2nd midterm written exam,</td></tr> <tr> <td style="padding: 5px;">20 %</td><td style="padding: 5px;">• 3rd midterm written exam.</td></tr> </table>	50 %	• computer lab work*,	15 %	• 1st midterm written exam,	15 %	• 2nd midterm written exam,	20 %	• 3rd midterm written exam.
50 %	• computer lab work*,								
15 %	• 1st midterm written exam,								
15 %	• 2nd midterm written exam,								
20 %	• 3rd midterm written exam.								

*Obvezno / Mandatory

Opomba: Če študent ni uspešno opravil vseh treh vmesnih izpitov, jih nadomesti s pisnim izpitom v deležu 50%.

Note: If a student has not completed all three midterm exams, he replaces them with a written exam in the weight of 50%.
