

Univerza v Mariboru

Fakulteta za naravoslovje
in matematiko

Vabilo

V okviru *Seminarja Oddelka za matematiko in računalništvo FNM UM* bo v sredo, 11. 6. 2014 ob 15.00 predaval

prof. dr. Bogdan Oporowski

z Louisiana State University, Baton Rouge, ZDA. Naslov predavanja je

Ramsey Theorems for Graph Minors.

Abstract:

I will explain the classical Ramsey Theorem, and how it extends to connected, and then more-highly-connected, graphs. In the process, I will discuss the essential concepts of the Graph Minors Project, like tree-width. Then I will discuss fairly recent results on Ramsey Theory for parallel minors.

Predavanje bo v predavalnici P1 na Gosposvetski 84 v Mariboru.

Vljudno vabljeni!

Predstojnik Oddelka za matematiko in računalništvo,
doc. dr. Andrej Taranenko
