

Univerza v Mariboru

Fakulteta za naravoslovje
in matematiko

UČNI NAČRT PREDMETA / COURSE SYLLABUS

Predmet:	Uporabniška programska oprema v izobraževanju
Course title:	Application software in education

Študijski program in stopnja Study programme and level	Študijska smer Study field	Letnik Academic year	Semester Semester
Izobraževalna matematika – dvopredmetni, 1. stopnja		2. ali 3.	4., 5. ali 6.
Educational mathematics – Double- major, 1 st degree		2. or 3.	4., 5. or 6.

Vrsta predmeta / Course type

Univerzitetna koda predmeta / University course code:

Predavanja Lectures	Seminar Seminar	Sem. vaje Tutorial	Lab. vaje Laboratory work	Teren. vaje Field work	Samost. delo Individ. work	ECTS
15			15		150	6

Nosilec predmeta / Lecturer:

Jeziki / Languages: **Predavanja / Lectures:**
Vaje / Tutorial:

Pogoji za vključitev v delo oz. za opravljanje študijskih obveznosti:

Prerequisites:

Vsebina:

Urejevalniki besedil: vizualno in logično urejanje (LaTeX, HTML). Uporabniški grafični programi: bitna in vektorska računalniška grafika.
Programi za delo s preglednicami.
Programi za izdelavo predstavitev.
Programi za numerično in simbolično računanje.

Content (Syllabus outline):

Text editors: visual and logical editing (LaTeX, HTML). Graphic software: bitmap and vector graphics.
Spreadsheet editors.
Presentation software.
Programs for numeric and symbolic computation.

Temeljni literatura in viri / Readings:

M. Artač, B. Batagelj, M. Jorgan, Ž. Kranjec, B. Kverh, K. Mele, P. Peer, M. Peternel, F. Solina.
Uporabniška programska oprema, FRI, Ljubljana, 2004.

V. Batagelj, B. Golli: TeX: povabilo v TEX, LATEX, BIBTEX, PICTEX, Ljubljana, DMFA, 1990.

Cilji in kompetence:

Objectives and competences:

Spoznati različno uporabniško programsko opremo s teoretičnega in praktičnega vidika; s poudarkom uporabniški programski opremi za izobraževanje.

To know a variety of application software from theoretic and practice view; to place emphasis on software that support education.

Predvideni študijski rezultati:

Znanje in razumevanje:

- znanje in razumevanje konceptov uporabniške programske opreme,
- navesti lastnosti in na tej osnovi izbrati in učinkovito uporabiti primerno uporabniško programsko opremo

Prenosljive/ključne spretnosti in drugi atributi:

- Pridobljena znanja so podlaga za razne predmete tekom študija.

Intended learning outcomes:

Knowledge and Understanding:

- knowledge and understanding of user software concepts,
- list of properties and on this basis select and efficiently use appropriate user software tools for selected task,

Transferable/Key Skills and other attributes:

- The obtained knowledge is a basis for most of the later subjects.

Metode poučevanja in učenja:

- Predavanja
- Računalniške vaje

Learning and teaching methods:

- Lectures
- Computer exercises

Načini ocenjevanja:

Assessment:

Način (pisni izpit, ustno izpraševanje, naloge, projekt)	Delež (v %) / Weight (in %)	Type (examination, oral, coursework, project):
Pisni test	80%	Written test - problems
Projekt	20%	Exam (written) – theory Project
Vsaka izmed naštetih obveznosti mora biti opravljena s pozitivno oceno.		Each of the mentioned commitments must be assessed with a passing grade.
Pozitivni oceni pri pisnem testu in projektu sta pogoj za pristop k izpitu.		Passing grades of the written test and coursework are required for taking the exam.
