Prerequisites:

Vsebina: Vsebina predmeta se prilagaja aktualnim potrebam in razvoju. Poglobili bomo znanje iz uporabe računalnika pri reševanju matematičnih problemov, predvsem s področja diskretne matematike. - Relacije in algoritmi nad relacijami - Boolova algebra	Content (Syllabus outline): The contents of this subject is adjusted to the current needs and development. We will deepen the knowledge of using a computer to solve mathematical problems, mainly from discrete mathematics. - relations and algorithms on relations - Bool algebra
