Fakulteta za naravoslovje
in matematiko

UČNI NAČRT PREDMETA / COURSE SYLLABUS

Predmet:	Izbrana poglavja iz mikrobnih bioznanosti
Course title:	Selected Topics in Microbial Biosciences

Študijski program in stopnja Study programme and level	Študijska smer Study field	Letnik Academic year	Semester Semester
Doktorski študij Ekološke znanosti, 3. stopnja		1. ali 2.	1.–4.
Doctoral Study Ecological Sciences, 3rd degree		1st or 2nd	1st–4th

Vrsta predmeta / Course type

Izbirni/Elective

Univerzitetna koda predmeta / University course code:

Predavanja Lectures	Seminar Seminar	Vaje Tutorial	Lab. vaje Laboratory work	Druge oblike študija	Samost. delo Individ. work	ECTS

slovenščina / Slovene

Pogoji za vključitev v delo oz. za opravljanje študijskih obveznosti:

Jih ni.

Prerequisites:

No.

Vsebina:

Iz področij mikrobnih bioznanosti bodo izbrana poglavja, ki se bodo navezovala na doktorsko delo v predmet vpisanih študentov.

Content (Syllabus outline):

Topics will be selected from the fields of microbial biosciences that will be related to the doctoral thesis of students enrolled in the course.

Temeljni literatura in viri / Readings:

Madigan, M. T., Bender, K. S., Buckley, D. H., Sattley, W. M., Stahl, D. A. (2022). *Brock biology of microorganisms* (16. izdaja, str. 1124). Pearson.

Predojević, L., Keše, D., Žgur-Bertok, D., Železnik Ramuta, T., Veranič, P., Erdani-Kreft, M., & Starčič Erjavec, M. (2022). A biomimetic porcine urothelial model for assessing *Escherichia coli* pathogenicity. *Microorganisms*, 10(4), 1-16,. <https://www.mdpi.com/2076-2607/10/4/783/html>

Cilji in kompetence:

Cilj predmeta je nadgraditi znanje iz mikrobnih bioznanosti, ki je bilo osvojeno na preddoktorskem študiju, v znanje in kompetence, ki so potrebne za uspešno izvedbo raziskovalnega dela in pregleda literature s področja mikrobnih bioznanosti v okviru doktorske disertacije.

Objectives and competences:

The aim of the course is to upgrade the knowledge of microbial biosciences acquired during pre-doctoral studies into the knowledge and competencies necessary for the successful implementation of research work and a literature review related to microbial biosciences needed for the doctoral dissertation.

Predvideni študijski rezultati:

Znanje in razumevanje:
Študent bo poglobil znanje in razumevanje o izbranih vsebinah iz mikrobnih bioznanosti, ki se navezujejo na uspešno izvedbo raziskovalnega dela in pregleda literature s področja mikrobnih bioznanosti v okviru doktorske disertacije.

Intended learning outcomes:

Knowledge and understanding:
Student will deepen the knowledge and understanding of selected microbial biosciences topics, relevant to the successful implementation of research work and the literature review related to microbial biosciences required for the doctoral dissertation.

Metode poučevanja in učenja:**Learning and teaching methods:**

• Predavanja • Seminarsko delo • Laboratorijske vaje	• Lectures • Seminar work • Laboratory exercises
